Methodological notes

Statistical institute source

Data are provided by *Statistics New Zealand*.

National data are currently collected using the ANZSIC (Australian and New Zealand Standard Industrial Classification). This was used in the Annual Enterprise survey (AES) for the first time in 1998 and Business Frame (register) (BF) in 1997. Prior to these dates the AES and BF were collected on an NZSIC basis. The BF is maintained using information from Inland Revenue, such as Goods and Services Tax (GST) registrations and Employee Monthly Schedule (EMS) returns, as well as Statistics New Zealand survey information.

Statistics New Zealand has recently developed from the BF a new statistical resource, the Longitudinal Business Frame (LBF). To enable trends to be studied, the new series has been back cast to February 2000 and released on a provisional basis. The LBF series covers all industries and includes an expanded coverage of New Zealand business. The LBF has been used as the source for a new series of Business Demography (BD) statistics.

The LBF contains data from two main sources: Statistics New Zealand's Business Frame (BF), and payroll tax records drawn from the Linked Employer-Employee Database (LEED). The BF is, however, the predominant source.

Coverage and data sources

Structural Statistics for Industry and Services (SSIS)

The table below provides a description of the coverage of the SSIS database for New Zealand together with a description, where available, of the underlying data sources. The statistical units used to estimate SSIS variables are the enterprise and local unit.

Variable	Source	Years	Notes
Turnover or gross premiums written	Annual enterprise survey	2002-07	
Production at producers' prices	Annual enterprise survey	1996-2007	
Value added at basic prices	Annual enterprise survey	1996-2007	1
Value added at factor costs	n.a.		
Gross operating surplus	Annual enterprise survey	2002-07	
Total purchases of goods and services	Annual enterprise survey	2002-07	
Change in stocks of goods and services	Annual enterprise survey	2002-07	
Purchases of energy products	n.a.		
Gross investment in tangible goods	Annual enterprise survey	1996-2007	
Gross investment in land	Annual enterprise survey	2002-07	
Gross investment in existing buildings and structures	Annual enterprise survey	2002-07	
Gross investment in machinery and equipment	Annual enterprise survey	1996-2007	
Employment: number of employees	Longitudinal business frame	2000-08	2
Compensation of labour, all persons engaged	Annual enterprise survey	1996-2007	
Compensation of labour, employees	Annual enterprise survey	2002-07	
Wages and salaries, all persons engaged	Annual enterprise survey	2002-07	
Wages and salaries, employees	Annual enterprise survey	2002-07	
Other employers' social contributions, employees	Annual enterprise survey	2002-07	
Number of enterprises	Longitudinal business frame	2000-08	2
Number of establishments	Longitudinal business frame	2000-08	2

1. At producers' prices.
2. Reflects the position in February of each year.
3. The AES for 2007 has been designed and published using ANZSIC 06. Previous Annual Enterprise Surveys, including 2005 and 2006, were designed and published on an ANZSIC 96 basis.

Business Statistics by Size Class (BSC)

The table below provides a description of the coverage of the BSC database for New Zealand together with a description, where available, of the underlying data sources. The statistical unit used to estimate BSC variables is the enterprise and the local unit activity.

The criteria used to classify business data by size class is the number of employees.

Variable	Source	Years	Notes
Turnover or gross premiums written	Annual enterprise survey	2003	
Production at producers' prices	Annual enterprise survey	2003	
Value added at basic prices	Annual enterprise survey	2003	1
Value added at factor costs	n.a.		
Gross operating surplus	n.a.		
Total purchases of goods and services	n.a.		
Change in stocks of goods and services	n.a.		
Purchases of energy products	n.a.		
Gross investment in tangible goods	Annual enterprise survey	2003	
Gross investment in land	n.a.		
Gross investment in existing buildings and structures	n.a.		
Gross investment in machinery and equipment	n.a.		
Employment: number of employees	Longitudinal business frame	2000-08	2
Hours worked by employees	n.a.		
Compensation of labour, all persons engaged	Annual enterprise survey	2003	
Compensation of labour, employees	n.a.		
Wages and salaries, all persons engaged	n.a.		
Wages and salaries, employees	Annual enterprise survey	2003	
Other employers' social contributions, employees	n.a.		
Number of enterprises	Longitudinal business frame	2000-08	2
Number of establishments	Longitudinal business frame	2000-08	2

1. At producers' prices.
2. Reflects the position in February of each year.

Methodological breaks

As the design in the AES data (*i.e.* using ANZSIC 06) has changed and was backdated to 2005, SSIS data for previous years may not be directly comparable to the 2005-07 data.

All variables measured by the annual enterprise survey reflect economically significant enterprises. These are defined as enterprises that meet at least one of the following criteria:

- Greater than $30 000 NZL annual GST expenses or sales.
- Rolling mean employee count of greater than three.
- Is in a GST exempt industry (ex-residential property leasing and rental).
- Is part of a group of enterprises.
- Is registered for GST and involved in agriculture or forestry.

The coverage of variables collected using the annual enterprise survey (AES) has been subject to change over time. In 1998, the AES included private sector participants in the sewerage and drainage services and water supply industries, horticulture and fruit growing, livestock and cropping farming, dairy cattle farming, other farming and commercial property operators and developers. In 1999, the following industries were

included: superannuation, creative arts, sports and services to sports, and interest groups not elsewhere classified.

Readers should also note that information provided by the annual enterprise survey is based on financial year reporting, which differs by sector as shown below. No adjustment is made to convert financial year data into calendar years.

Predominant balance dates by ANZSIC division

Industry	
A – Agriculture, forestry and fishing	March
B – Mining	December
C – Manufacturing	March
D – Electricity generation and supply, gas and water supply	June
E – Construction	March
F – Wholesale trade	March
G – Retail trade	March
H – Accommodation, cafés and restaurants	March
I and J – Transport, storage and communication	June
K – Finance and insurance	June
L – Property and business services	March
M – Government administration and defence	June
N – Education	December
O – Health and community services	June
P – Cultural and recreational services	March
Q – Personal and other community services	March

Variable notes

SSIS and BSC

Employment: number of employees – Refers to Employee Count (EC) is a head count of salary and wage earners, including working proprietors who also pay themselves a taxable salary or wage.
