## Main country groupings

In the Indicators by subject tables provided in Part I of MEI, data are given for individual member countries, the Euro area, European Union, and also for two major groups of countries (zones): namely, OECD-Total, and Major seven countries. The country composition of these groups is:

<b>OECD-Total:</b>	The 34 OECD countries.
<b>Major seven:</b>	The major seven economies of the OECD: United States, Canada, Japan, France, Italy, Germany and United Kingdom.
<b>Euro area:</b>	The 17 countries of the euro area.
<b>EU27:</b>	The European Union of 27 countries.

## Calculation of area totals

Euro area and European Union (EU27) area aggregations are provided by the relevant European authorities. A number of different methods are used to compile the OECD zone aggregates included in this publication and what follows are the general methods observed.

The aggregate is only calculated when at least 75% of the data is available; recent periods are used as the benchmark. If data are simply additive, *e.g.* Employment by persons, then the aggregate is compiled through simple addition. In these cases estimates are made for missing countries' data.

For the remaining series, data are converted into a common 'currency' using either US Dollars or Purchasing power parties (PPPs) as the conversion factor or in the case of indices, weights are calculated using nominal Gross domestic product or Private final consumption expenditure in PPPs.

Where chain-linking is used, the method is normally an annual chain-linked Laspeyres index. In most cases separate estimates for missing country data are not made as the chain-linking procedure implicitly undertakes these estimations.

## **ORGANISATION FOR ECONOMIC CO-OPERATION AND DEVELOPMENT**

The OECD is a unique forum where governments work together to address the economic, social and environmental challenges of globalisation. The OECD is also at the forefront of efforts to understand and to help governments respond to new developments and concerns, such as corporate governance, the information economy and the challenges of an ageing population. The Organisation provides a setting where governments can compare policy experiences, seek answers to common problems, identify good practice and work to co-ordinate domestic and international policies.

The OECD member countries are: Australia, Austria, Belgium, Canada, Chile, the Czech Republic, Denmark, Estonia, Finland, France, Germany, Greece, Hungary, Iceland, Ireland, Israel, Italy, Japan, Korea, Luxembourg, Mexico, the Netherlands, New Zealand, Norway, Poland, Portugal, the Slovak Republic, Slovenia, Spain, Sweden, Switzerland, Turkey, the United Kingdom and the United States. The European Commission takes part in the work of the OECD.

OECD Publishing disseminates widely the results of the Organisation's statistics gathering and research on economic, social and environmental issues, as well as the conventions, guidelines and standards agreed by its members.
