

## *Annex B*

**Methodology Note:** Data on non-core multilateral aid can be found in the Creditor Reporting System database. Non-core multilateral aid is reported as bilateral aid, with a multilateral agency identified in the channel code. A few donors do not provide detailed channel codes beyond the overall multilateral code of 40000. For this reason, an attempt was made to examine the channel names of bilateral ODA flows in order to gain a more accurate picture of 2008 non-core multilateral disbursements for this report. As a result, queries of the Creditor Reporter System may yield slight discrepancies with the tables presented in Annex B.
