ANNEX A

LIST OF TABLES AVAILABLE ON LINE

The following tables are available in electronic form only (see StatLinks below)

Chapter 1  Overview – The resilience of students with an immigrant background: Factors that shape well-being

Table 1.1 Well-being risks for students, by immigrant background
Table 1.2 Relative risk for immigrant students of not being resilient, by resilience outcome
Table 1.3 The overlap of immigrant students’ resilience

Chapter 3  Adversity and adjustment: The resilience of students with an immigrant background

Table 3.2 Trends in the percentage of students with an immigrant background
Table 3.3 Trends in the percentage of students with an immigrant background, by age at arrival
Table 3.4 Trends in the percentage of late arrivals
Table 3.7 Attaining baseline academic proficiency, by immigrant background
Table 3.8 Attaining baseline academic proficiency, by age at arrival
Table 3.9 Trends in the percentage of students attaining baseline academic proficiency, by immigrant background
Table 3.10 Sense of belonging at school, by immigrant background
Table 3.11 Sense of belonging at school, by age at arrival
Table 3.12 Trends between 2003 and 2015 in sense of belonging at school, by immigrant background
Table 3.13 Valuing teamwork, by immigrant background
Table 3.14 Valuing relationships, by immigrant background
Table 3.15 Satisfaction with life, by immigrant background
Table 3.16 Satisfaction with life, by age at arrival
Table 3.17 Low schoolwork-related anxiety, by immigrant background
Table 3.18 Low schoolwork-related anxiety, by age at arrival
Table 3.19 High motivation to achieve, by immigrant background
Table 3.20 High motivation to achieve, by age at arrival
Table 3.21 Academically sound and socially and emotionally well-adapted students, by immigrant background
Table 3.22 Academically sound and socially and emotionally well-adapted students, by age at arrival

Chapter 4  Individual characteristics and the resilience of students with an immigrant background

Table 4.1 Students who work for pay, by immigrant background
Table 4.2 Students who do unpaid work in the household, by immigrant background
Table 4.3 Change in the likelihood of attaining baseline academic proficiency related to working for pay/unpaid
Table 4.4 Participation in pre-primary education, by immigrant background
Table 4.5 Change in the likelihood of attaining baseline academic proficiency related to attendance at pre-primary education
Table 4.6 Percentage of female students, by immigrant background
Table 4.7 The interaction between gender and immigrant background in students’ likelihood of attaining baseline levels of academic proficiency
Table 4.8 The interaction between gender and immigrant background in students’ likelihood of reporting a sense of belonging at school
Table 4.9 The interaction between gender and immigrant background in students’ likelihood of reporting being satisfied with life
Table 4.10 The interaction between gender and immigrant background in students’ likelihood of reporting low schoolwork-related anxiety
Table 4.11 The interaction between gender and immigrant background in students’ likelihood of reporting high achievement motivation
Chapter 5 Language barriers and the resilience of students with an immigrant background

Table 5.3 Students with an immigrant background and non-native speakers
Table 5.4 Non-native speakers, by immigrant background
Table 5.5 Percentage of non-native speakers in each immigrant group
Table 5.6 Non-native speakers, by age at arrival
Table 5.7 PISA reading scores, by immigrant background and language spoken at home
Table 5.8 PISA mathematics scores, by immigrant background and language spoken at home
Table 5.9 Attaining baseline academic proficiency, by immigrant background and language spoken at home
Table 5.10 Attaining baseline academic proficiency, by immigrant group and language spoken at home
Table 5.11 Baseline academic proficiency and sense of belonging, by age at arrival
Table 5.12 Sense of belonging at school, by immigrant background and language spoken at home
Table 5.13 Sense of belonging at school, by immigrant group and language spoken at home
Table 5.14 Life satisfaction and low schoolwork-related anxiety, by language spoken at home

Chapter 6 Resilience and the socio-economic status of students with an immigrant background

Table 6.3 Trends in the socio-economic status of students, by immigrant background
Table 6.4 Socio-economic status of students, by students’ and parents’ immigrant background
Table 6.5 Change related to socio-economic status in the likelihood of immigrant students attaining baseline academic proficiency
Table 6.6 Differences in SAT scores in 2016, by subject and ethnic group
Table 6.7 Change related to socio-economic status in the likelihood of attaining baseline academic proficiency, by immigrant background
Table 6.8 Attaining baseline academic proficiency, by immigrant background and socio-economic tercile
Table 6.9 Attaining baseline academic proficiency, by immigrant background and socio-economic status
Table 6.10 Difference in science performance between native and immigrant students
Table 6.11 Change related to socio-economic status in the likelihood of immigrant students reporting a sense of belonging at school
Table 6.12 Change related to socio-economic status in the likelihood of reporting a sense of belonging at school, by immigrant background
Table 6.13 Change related to socio-economic status in the likelihood of immigrant students reporting satisfaction with life
Table 6.14 Change related to socio-economic status in the likelihood of reporting satisfaction with life, by immigrant background
Table 6.15 Change related to socio-economic status in the likelihood of immigrant students reporting low levels of schoolwork-related anxiety
Table 6.16 Change related to socio-economic status in the likelihood of reporting low levels of schoolwork-related anxiety, by immigrant background
Table 6.17 Change related to socio-economic status in the likelihood of immigrant students reporting high achievement motivation
Table 6.18 Change related to socio-economic status in the likelihood of reporting high achievement motivation, by immigrant background
Table 6.19 Years of parents’ education, by immigrant background
Table 6.20 Parents’ highest occupational status, by immigrant background
Table 6.21 Household possessions, by immigrant background
Table 6.22 Socio-economic status and academic outcomes

Chapter 7 How schools and education policy support or undermine student resilience

Table 7.3 Distribution of students in urban areas
Table 7.4 Immigrant-native differences in school-choice criteria
Table 7.5 Immigrant-native differences in school-choice criteria, by socio-economic status
Table 7.6 Concentration of immigrant students in schools
Table 7.7 Concentration of students with an immigrant background in schools
Table 7.8 Baseline academic proficiency and the concentration of immigrant students in school
Table 7.9 Baseline academic proficiency and the concentration of immigrant students in school, by immigrant background
Table 7.10 Sense of belonging and the concentration of immigrant students in school
Table 7.11 Sense of belonging and the concentration of immigrant students in school, by immigrant background
Table 7.12 Parents’ involvement in the school community, by immigrant background
