

Foreword

This Survey is published on the responsibility of the Economic and Development Review Committee of the OECD, which is charged with the examination of the economic situation of member countries.

The economic situation and policies of Australia were reviewed by the Committee on 19 September 2023, with participation of representatives of the Australian authorities. The draft report was then revised in the light of the discussions and given final approval as the agreed report of the whole Committee on 11 October 2023. The Secretariat's draft report was prepared for the Committee by Ben Westmore and Álvaro Leandro under the supervision of Sebastian Barnes. Statistical research assistance was provided by Lutécia Daniel, and editorial support by Elodie Lormel. Support from the government of Australia is gratefully acknowledged. The previous Survey of Australia was issued in September 2021.

Information about the latest as well as previous Surveys and more information about how Surveys are prepared is available at <https://www.oecd.org/eco/surveys/>.
