Leaving no one behind

LEAVING NO ONE BEHIND
How development co-operation can play to its strengths to achieve the SDGs for all.

WHAT IT MEANS

- **INCLUSION**: People-centred and informed by the voices and needs of people and countries that are left out
- **EQUITY**: Access and rights for everyone, including the poorest and most vulnerable in the hardest to reach areas
- **SUSTAINABILITY**: Preserve the environment and development results for future generations

WHAT IT TAKES
Success cannot be achieved solely on the back of faster economic growth. It requires strong political will to...

- **understand** multidimensional drivers, needs and results with the right data
- **accelerate** progress for the poorest and most disadvantaged people and places on all SDGs
- **tackle** discrimination, vulnerability and exclusion

A CALL TO RENEW AND REFORM DEVELOPMENT CO-OPERATION FRAMEWORKS
