Education Indicators in Focus

Education Indicators in Focus is a series of OECD briefs that highlight specific indicators in Education at a Glance that are of particular interest to policy makers and practitioners. These briefs provide a detailed look into current issues in pre-primary, primary and secondary education, higher education, and adult outcomes from a global perspective.

They contain an engaging mix of text, tables and charts that describe the international context of the most pressing questions in education policy and practice.

The complete series is available at:
