ANNEX A

LIST OF TABLES AVAILABLE ON LINE

The following tables are available in electronic form only (see *StatLinks* below)

Chapter 1 Overview – The resilience of students with an immigrant background: Factors that shape well-being

StatLink 🔗 http://dx.doi.org/10.1787/888933683041

WEB	Table 1.1	Well-being risks for students, by immigrant background
WEB	Table 1.2	Relative risk for immigrant students of not being resilient, by resilience outcome
WEB	Table 1.3	The overlap of immigrant students' resilience

Chapter 3 Adversity and adjustment: The resilience of students with an immigrant background

StatLink 🔗 http://dx.doi.org/10.1787/888933683060

WEB	Table 3.2	Trends in the percentage of students with an immigrant background
WEB	Table 3.3	Trends in the percentage of students with an immigrant background, by age at arrival
WEB	Table 3.4	Trends in the percentage of late arrivals
WEB	Table 3.7	Attaining baseline academic proficiency, by immigrant background
WEB	Table 3.8	Attaining baseline academic proficiency, by age at arrival
WEB	Table 3.9	Trends in the percentage of students attaining baseline academic proficiency, by immigrant background
WEB	Table 3.10	Sense of belonging at school, by immigrant background
WEB	Table 3.11	Sense of belonging at school, by age at arrival
WEB	Table 3.12	Trends between 2003 and 2015 in sense of belonging at school, by immigrant background
WEB	Table 3.13	Valuing teamwork, by immigrant background
WEB	Table 3.14	Valuing relationships, by immigrant background
WEB	Table 3.15	Satisfaction with life, by immigrant background
WEB	Table 3.16	Satisfaction with life, by age at arrival
WEB	Table 3.17	Low schoolwork-related anxiety, by immigrant background
WEB	Table 3.18	Low schoolwork-related anxiety, by age at arrival
WEB	Table 3.19	High motivation to achieve, by immigrant background
WEB	Table 3.20	High motivation to achieve, by age at arrival
WEB	Table 3.21	Academically sound and socially and emotionally well-adapted students, by immigrant background
WEB	Table 3.22	Academically sound and socially and emotionally well-adapted students, by age at arrival

Chapter 4 Individual characteristics and the resilience of students with an immigrant background

StatLink 🔗 http://dx.doi.org/10.1787/888933683079

WEB	Table 4.1	Students who work for pay, by immigrant background
WEB	Table 4.2	Students who do unpaid work in the household, by immigrant background
WEB	Table 4.3	Change in the likelihood of attaining baseline academic proficiency related to working for pay/unpaid
WEB	Table 4.4	Participation in pre-primary education, by immigrant background
WEB	Table 4.5	Change in the likelihood of attaining baseline academic proficiency related to attendance at pre-primary education
WEB	Table 4.6	Percentage of female students, by immigrant background
WEB	Table 4.7	The interaction between gender and immigrant background in students' likelihood of attaining baseline levels of academic proficiency
WEB	Table 4.8	The interaction between gender and immigrant background in students' likelihood of reporting a sense of belonging at school
WEB	Table 4.9	The interaction between gender and immigrant background in students' likelihood of reporting being satisfied with life
WEB	Table 4.10	The interaction between gender and immigrant background in students' likelihood of reporting low schoolwork-related anxiety
WEB	Table 4.11	The interaction between gender and immigrant background in students' likelihood of reporting high achievement motivation

Chapter 5 Language barriers and the resilience of students with an immigrant background

StatLink ⬛⬛⬛ http://dx.doi.org/10.1787/888933683098

WEB	Table 5.3	Students with an immigrant background and non-native speakers
WEB	Table 5.4	Non-native speakers, by immigrant background
WEB	Table 5.5	Percentage of non-native speakers in each immigrant group
WEB	Table 5.6	Non-native speakers, by age at arrival
WEB	Table 5.7	PISA reading scores, by immigrant background and language spoken at home
WEB	Table 5.8	PISA mathematics scores, by immigrant background and language spoken at home
WEB	Table 5.9	Attaining baseline academic proficiency, by immigrant background and language spoken at home
WEB	Table 5.10	Attaining baseline academic proficiency, by immigrant group and language spoken at home
WEB	Table 5.11	Baseline academic proficiency and sense of belonging, by age at arrival
WEB	Table 5.12	Sense of belonging at school, by immigrant background and language spoken at home
WEB	Table 5.13	Sense of belonging at school, by immigrant group and language spoken at home
WEB	Table 5.14	Life satisfaction and low schoolwork-related anxiety, by language spoken at home

Chapter 6 Resilience and the socio-economic status of students with an immigrant background

StatLink ⬛⬛⬛ http://dx.doi.org/10.1787/888933683117

WEB	Table 6.3	Trends in the socio-economic status of students, by immigrant background
WEB	Table 6.4	Socio-economic status of students, by students' and parents' immigrant background
WEB	Table 6.5	Change related to socio-economic status in the likelihood of immigrant students attaining baseline academic proficiency
WEB	Table 6.6	Differences in SAT scores in 2016, by subject and ethnic group
WEB	Table 6.7	Change related to socio-economic status in the likelihood of attaining baseline academic proficiency, by immigrant background
WEB	Table 6.8	Attaining baseline academic proficiency, by immigrant background and socio-economic tercile
WEB	Table 6.9	Attaining baseline academic proficiency, by immigrant background and socio-economic status
WEB	Table 6.10	Difference in science performance between native and immigrant students
WEB	Table 6.11	Change related to socio-economic status in the likelihood of immigrant students reporting a sense of belonging at school
WEB	Table 6.12	Change related to socio-economic status in the likelihood of of reporting a sense of belonging at school, by immigrant background
WEB	Table 6.13	Change related to socio-economic status in the likelihood of immigrant students reporting satisfaction with life
WEB	Table 6.14	Change related to socio-economic status in the likelihood of reporting satisfaction with life, by immigrant background
WEB	Table 6.15	Change related to socio-economic status in the likelihood of immigrant students reporting low levels of schoolwork-related anxiety
WEB	Table 6.16	Change related to socio-economic status in the likelihood of reporting low levels of schoolwork-related anxiety, by immigrant background
WEB	Table 6.17	Change related to socio-economic status in the likelihood of immigrant students reporting high achievement motivation
WEB	Table 6.18	Change related to socio-economic status in the likelihood of reporting high achievement motivation, by immigrant background
WEB	Table 6.19	Years of parents' education, by immigrant background
WEB	Table 6.20	Parents' highest occupational status, by immigrant background
WEB	Table 6.21	Household possessions, by immigrant background
WEB	Table 6.22	Socio-economic status and academic outcomes

Chapter 7 How schools and education policy support or undermine student resilience

StatLink ⬛⬛⬛ http://dx.doi.org/10.1787/888933683136

| WEB | Table 7.3 | Distribution of students in urban areas |
WEB	Table 7.4	Immigrant-native differences in school-choice criteria
WEB	Table 7.5	Immigrant-native differences in school-choice criteria, by socio-economic status
WEB	Table 7.6	Concentration of immigrant students in schools
WEB	Table 7.7	Concentration of students with an immigrant background in schools
WEB	Table 7.8	Baseline academic proficiency and the concentration of immigrant students in school
WEB	Table 7.9	Baseline academic proficiency and the concentration of immigrant students in school, by immigrant background
WEB	Table 7.10	Sense of belonging and the concentration of immigrant students in school
WEB	Table 7.11	Sense of belonging and the concentration of immigrant students in school, by immigrant background
WEB	Table 7.12	Parents' involvement in the school community, by immigrant background

...

Chapter 8 What students with an immigrant background expect in their future
